Reconciliations of these forward-looking non-GAAP financial measures are not included in the Press Release furnished herewith due to the high variability and difficulty in making accurate forecasts and projections of some of the excluded information, together with some of the excluded information not being ascertainable or accessible at this time. As a result, the Company is unable to quantify certain amounts that would be required to be included in the most directly comparable GAAP financial measure without unreasonable efforts.

These non-GAAP financial measures reflect how Avid manages its businesses internally. Avid’s non-GAAP measures may vary from how other companies present non-GAAP measures. Non-GAAP financial measures should be considered in addition to, not as a substitute for or superior to, financial measures determined in accordance with GAAP.

The Press Release furnished herewith also includes the operational metrics of Cloud-enabled software subscriptions, Recurring Revenue, Annual Contract Value and Revenue Backlog. Definitions of these operational metrics are included in the supplemental financial and operational data sheet available on our investor relations webpage at ir.avid.com.

- Cloud-enabled software subscriptions as of the end of a quarter represent the number of paid subscription licenses under an active contract as of that date, excluding any licenses that may be receiving service under an active contract but that are not paid for at that time by the customer, whether due to a promotion, cancellation or otherwise. For comparison purposes, subscription numbers for previous quarters have been adjusted from previously published numbers to (i) include multi-year and multi-seat licenses, and (ii) exclude certain terminated subscription licenses.
- Recurring Revenue is defined as the sum, without duplication, of subscription revenue, maintenance revenue and revenue under our long-term contractual agreements.
- LTM Recurring Revenue % is Recurring Revenue divided by Total Net Revenue for the most recent four quarters.
- Annual Contract Value is defined, as of a given date, as the sum of the following three components: (i) the annual value of all long-term contractual agreements in effect on such date, calculated by dividing the total value of each contract (excluding expected maintenance revenue included in (ii) below and expected subscription revenue included in (iii) below) divided by the total number of years of such contract, (ii) maintenance revenue for the quarter ended on such date, multiplied by four, and (iii) subscription revenue for the quarter ended on such date, multiplied by four.
- Revenue Backlog consists of firm orders received and includes both (i) orders where the customer has been invoiced in advance of our performance obligations being fulfilled and (ii) orders for future product deliveries or services that have not yet been invoiced by us.

Limitation on Incorporation by Reference. The information furnished in Items 2.02 and 7.01, including the Press Release furnished herewith as Exhibit 99.1 shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934 (the “Exchange Act”), or otherwise subject to the liabilities of that section, nor shall such information be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, except as expressly set forth by specific reference in such a filing.

Cautionary Note Regarding Forward-Looking Statements. This Form 8-K, and the Press Release furnished herewith as Exhibit 99.1 contain forward-looking statements that involve certain risks and uncertainties that could cause actual results to differ materially from those expressed or implied by these statements. “Despite some slight revenue headwinds in the second quarter related to our supply chain transition, I am pleased with our overall performance in the first half of 2019 as our results are in line with our plans. We are better positioned emerging from the first half than we have been in many years,” said Jeff Rosica, CEO and President of Avid. “We’re pleased that our strategic plan is delivering as expected, and that we’re on a good trajectory for the second half, aided by the delivery of significant new products to market in the second quarter, including new versions of our flagship creative tools, MediaCentral platform, and cloud storage.”

“While we continue to see year over year improvements in gross margin, Adjusted EBITDA, and Free Cash Flow, we faced certain headwinds during Q2 related to our supply chain transition that brought our Q2 results below expectations,” commented Ken Gayron, Executive Vice President and Chief Financial Officer of Avid. Mr. Gayron added, “That said, we continue to see the benefits from our Smart Savings initiatives which have enhanced our profitability and cash flow. We are well positioned as we enter the second half of 2019 to see continued year over year improvement in our key financial metrics.” Mr. Gayron further added, “We are

introducing Non-GAAP Net Income Per Share guidance for full-year 2019 to provide more information to investors to evaluate the progress we are making in our business model.”
