Reconciliations of these forward-looking non-GAAP financial measures are not included in the Press Release furnished herewith due to the high variability and difficulty in making accurate forecasts and projections of some of the excluded information, together with some of the excluded information not being ascertainable or accessible at this time. As a result, the Company is unable to quantify certain amounts that would be required to be included in the most directly comparable GAAP financial measure without unreasonable efforts.

These non-GAAP financial measures reflect how Avid manages its businesses internally. Avid's Non-GAAP measures may vary from how other companies present non-GAAP measures. This non-GAAP information supplements, and is not intended to represent a measure of performance in accordance with, disclosures required by GAAP. Non-GAAP financial measures should be considered in addition to, not as a substitute for or superior to, financial measures determined in accordance with GAAP.

The Press Release furnished herewith also includes or references the operational metrics of Cloud-enabled software subscriptions, Recurring Revenue, LTM Recurring Revenue %, Annual Recurring Revenue, Annual Contract Value and Revenue Backlog. Definitions of these operational metrics appear below and are also included in the supplemental financial and operational data sheet available on our investor relations webpage at ir.avid.com.

- Cloud-enabled software subscriptions as of the end of a quarter represent the number of paid subscription licenses under an active contract as of that date, excluding any licenses that may be receiving service under an active contract but that are not paid for at that time by the customer, whether due to a promotion, cancellation or otherwise.
- Recurring Revenue is defined as the sum without duplication of subscription revenue, maintenance revenue and revenue under our long-term contractual agreements.
- LTM Recurring Revenue % is Recurring Revenue divided by Total Net Revenue for the most recent four quarters.
- Annual Recurring Revenue (ARR) is an operating metric that represents the contracted value of all subscription, cloud and maintenance customer support agreements normalized to a one-year period. Total ARR includes only active contractually committed agreements and is the sum of Subscription ARR and Maintenance ARR. Subscription ARR represents the contracted value of our term subscription offerings and our cloud offerings normalized to a one-year period. Subscription ARR is calculated at the end of a period as the sum of (1) the total contract value of each active term subscription agreement divided by the term of the agreement plus (2) the annualized value of active recurring cloud subscription and services agreements. Maintenance ARR represents the contracted value of all term maintenance customer support agreements normalized to a one-year period. Maintenance ARR represents the contracted value of all term maintenance customer support agreements normalized to a one-year period. Maintenance ARR represents the contracted value of all term maintenance customer support agreements normalized to a one-year period. Maintenance ARR is calculated at the end of a period by dividing the total contract value of each active maintenance customer support agreements.
- Annual Contract Value is defined, as of a given date, as the sum of the following three components: (i) the annual value of all long-term contractual agreements in effect on such date, calculated by dividing the total value of each contract (excluding expected maintenance revenue included in (ii) below and expected subscription revenue included in (iii) below) divided by the total number of years of such contract, (ii) maintenance revenue for the quarter ended on such date, multiplied by four, and (iii) subscription revenue for the quarter ended on such date, multiplied by four, and (iii) subscription revenue for the quarter ended on such date, multiplied by four.
- Revenue Backlog consists of firm orders received and includes both (i) orders where the customer has been invoiced in advance of our performance obligations being fulfilled and (ii) orders for future product deliveries or services that have not yet been invoiced by us.

Mr. Rosica continued, "Demand for our integrated solutions products remains strong, and while we continue to see some lingering constraints in the supply chain, we were able to resume production of certain audio hardware products late in the third quarter and we believe the remaining constraints are temporary. For the fourth quarter and full year, we believe we are well positioned to deliver earnings growth despite revenue headwinds from the impacts of foreign exchange and slower-than expected recovery from the current global supply chain situation."

Ken Gayron, Chief Financial Officer and Executive Vice President of Avid, added, "We are pleased with our strong Non-GAAP Earnings per Share growth of over forty percent that was driven by an acceleration of our subscription business including an all-time record in paid subscription net adds during the quarter." Mr. Gayron continued, "However, due to foreign exchange headwinds and the continuing challenges with the supply chain for integrated solutions, we are modifying our 2022 guidance for revenue and Free Cash Flow but maintaining and tightening our 2022 guidance for Non-GAAP Earnings per Share and Adjusted EBITDA due to prudent management of the business. Solely as a result of the foreign exchange headwinds, we are modifying our 2022 guidance for subscription & maintenance revenue."
