CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (“Form 10-Q”) includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. For this purpose, any statements contained in this Form 10-Q that relate to future results or events are forward-looking statements. Forward-looking statements may be identified by use of forward-looking words, such as “anticipate,” “believe,” “confidence,” “could,” “estimate,” “expect,” “feel,” “intend,” “may,” “plan,” “should,” “seek,” “will” and “would,” or similar expressions.

Forward-looking statements may involve subjects relating to, among others, the following:

- our ability to successfully implement our strategy, including our cost saving strategies;
 - the anticipated trends and developments in our markets and the success of our products in these markets;
 - our ability to develop, market and sell new products and services;
 - our business strategies and market positioning;
 - our ability to achieve our goal of expanding our market positions;
 - our ability to accelerate growth of our Cloud-enabled platform;
 - anticipated trends relating to our sales, financial condition or results of operations, including our shift to a recurring revenue model and complex enterprise sales with long sales cycles;
 - the expected timing of recognition of revenue backlog as revenue, and the timing of recognition of revenues from subscription offerings;
 - our ability to successfully consummate acquisitions or investment transactions and successfully integrate acquired businesses;
 - our anticipated benefits and synergies from, and the anticipated financial impact of, any acquired business;
 - the anticipated performance of our products;
 - changes in inventory levels;
 - plans regarding repatriation of foreign earnings;
 - the outcome, impact, costs and expenses of any litigation or government inquiries to which we are or become subject;
 - the effect of the continuing worldwide macroeconomic uncertainty on our business and results of operations, including Brexit;
 - our compliance with covenants contained in the agreements governing our indebtedness;
 - our ability to service our debt and meet the obligations thereunder, including our ability to satisfy our conversion and repurchase obligations under our convertible notes due 2020;
 - our ability to repay our remaining outstanding convertible notes when they come due in June 2020;
 - seasonal factors;
 - fluctuations in foreign exchange and interest rates;
-

- the risk of restatement of our financial statements;
- estimated asset and liability values and amortization of our intangible assets;
- our capital resources and the adequacy thereof; and
- worldwide political uncertainty, in particular the risk that the United States may withdraw from or materially modify NAFTA or other international trade agreements, and the effects of such actions on our supply chain, results of operations and financial condition.

Actual results and events in future periods may differ materially from those expressed or implied by forward-looking statements in this Form 10-Q. There are a number of factors that could cause actual events or results to differ materially from those indicated or implied by forward-looking statements, many of which are beyond our control, including the risk factors discussed herein and in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2018, in Part II and in other documents we file from time to time with the U.S. Securities and Exchange Commission (“SEC”). In addition, the forward-looking statements contained in this Form 10-Q represent our estimates only as of the date of this filing and should not be relied upon as representing our estimates as of any subsequent date. While we may elect to update these forward-looking statements in the future, we specifically disclaim any obligation to do so, whether to reflect actual results, changes in assumptions, changes in other factors affecting such forward-looking statements or otherwise.

We own or have rights to trademarks and service marks that we use in connection with the operation of our business. “Avid” is a trademark of Avid Technology, Inc. Other trademarks, logos, and slogans registered or used by us and our subsidiaries in the United States and other countries include, but are not limited to, the following: Avid NEXIS, AirSpeed, EUCON, MediaCentral, Media Composer, Pro Tools and Sibelius. Other trademarks appearing in this Form 10-Q are the property of their respective owners.

AVID TECHNOLOGY, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. FINANCIAL INFORMATION

The accompanying condensed consolidated financial statements include the accounts of Avid Technology, Inc. and its wholly owned subsidiaries (collectively, “we” or “our”). These financial statements are unaudited. However, in the opinion of management, the condensed consolidated financial statements reflect all normal and recurring adjustments necessary for their fair statement. Interim results are not necessarily indicative of results expected for any other interim period or a full year. We prepared the accompanying unaudited condensed consolidated financial statements in accordance with the instructions for Form 10-Q and, therefore, include all information and footnotes necessary for a complete presentation of operations, comprehensive income (loss), financial position, changes in stockholders’ deficit and cash flows in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The accompanying condensed consolidated balance sheet as of December 31, 2018 was derived from our audited consolidated financial statements and does not include all disclosures required by U.S. GAAP for annual financial statements. We filed audited consolidated financial statements as of and for the year ended December 31, 2018 in our Annual Report on Form 10-K for the year ended December 31, 2018, which included information and footnotes necessary for such presentation. The financial statements contained in this Form 10-Q should be read in conjunction with the audited consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2018.

Our preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the dates of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reported periods. Actual results could differ from our estimates.

Significant Accounting Policies - Revenue Recognition

We enter into contracts with customers that include various combinations of products and services, which are typically capable of being distinct and are accounted for as separate performance obligations. We account for a contract when (i) it has approval and commitment from both parties, (ii) the rights of the parties have been identified, (iii) payment terms have been identified, (iv) the contract has commercial substance and (v) collectibility is probable. We recognize revenue upon transfer of control of promised products or services to customers, which typically occurs upon shipment or delivery depending on the terms of the underlying contracts, in an amount that reflects the consideration we expect to receive in exchange for those products or services.

We often enter into contractual arrangements that have multiple performance obligations, one or more of which may be delivered subsequent to the delivery of other performance obligations. These arrangements may include a combination of products, support, training and professional services. We allocate the transaction price of the arrangement based on the relative estimated standalone selling price of each distinct performance obligation.

See Note 10 for disaggregated revenue schedules and further discussion on revenue and deferred revenue performance obligations and the timing of revenue recognition.

Recently Adopted Accounting Pronouncements

On January 1, 2019, we adopted ASC Topic 842, Leases (“ASC 842”) using the modified retrospective transition approach, as provided by ASU No. 2018-11, Leases - Targeted Improvements (“ASU 2018-11”). We elected the package of practical expedients permitted under the transition guidance. Results for reporting periods beginning after January 1, 2019 are presented under ASC 842, while prior periods have not been adjusted and continue to be reported in accordance with our historic accounting under previous U.S. GAAP. The primary impact of ASC 842 is that substantially all of our leases are recognized on the balance sheet, by recording right-of-use assets and short-term and long-term lease liabilities. The new standard does not have a material impact on our consolidated statement of operations and cash flows, and the effect of applying ASC 842 as a cumulative-effect adjustment to retained earnings as of January 1, 2019 is immaterial.

A summary of the changes to balance sheet line items that resulted from the adoption of ASC 842 as of January 1, 2019 is as follows (in thousands):

	As of January 1, 2019		
	As Previously Reported	Impact of Adoption of Topic 842	As Adjusted
Assets:			
Property and equipment, net	\$ 21,582	\$ 256	\$ 21,838
Right of use assets	\$ —	\$ 37,749	\$ 37,749
Liabilities:			
Accrued expenses and other current liabilities	\$ 37,547	\$ 6,957	\$ 44,504
Long-term lease liabilities	\$ —	\$ 35,694	\$ 35,694
Other long-term liabilities	\$ 10,302	\$ (4,646)	\$ 5,656

In accordance with guidance provided by the SEC staff, as of March 31, 2019, we began complying with expanded disclosure requirements under applicable SEC rules regarding the analysis of changes in stockholders' equity for interim financial statements.

2. NET INCOME PER SHARE

Net (loss) income per common share is presented for both basic (loss) income per share ("Basic EPS") and diluted (loss) income per share ("Diluted EPS"). Basic EPS is based on the weighted-average number of common shares outstanding during the period. Diluted EPS is based on the weighted-average number of common shares and common share equivalents outstanding during the period.

The potential common shares that were considered anti-dilutive securities were excluded from the diluted earnings per share calculations for the relevant periods either because the sum of the exercise price per share and the unrecognized compensation cost per share was greater than the average market price of our common stock for the relevant periods, or because they were considered contingently issuable. The contingently issuable potential common shares result from certain stock options and restricted stock units granted to our employees that vest based on performance conditions, market conditions, or a combination of performance and market conditions.

When there is a loss from continuing operations, potential common shares should not be included in the computation of Diluted EPS because the exercise or conversion of any potential shares increases the number of shares in the denominator and results in a lower loss per share. Therefore, all outstanding stock options and restricted stock units at June 30, 2019 and 2018 are anti-dilutive and not included in the EPS calculation. The following table sets forth (in thousands) potential common shares that were considered anti-dilutive securities at June 30, 2019 and 2018.

	June 30, 2019	June 30, 2018
Options	599	943
Non-vested restricted stock units	3,223	2,677
Anti-dilutive potential common shares	3,822	3,620

We issued our 2.00% senior convertible notes due 2020 (the "Notes") on June 15, 2015. The Notes are convertible into cash, shares of our common stock or a combination of cash and shares of common stock, at our election, based on an initial conversion rate, subject to adjustment. In connection with the offering of the Notes, we entered into a capped call transaction, or Capped Call, with a third party. We use the treasury stock method in computing the dilutive impact of the Notes. The Notes are convertible into shares of our common stock but our stock prices as of June 30, 2019 and 2018 were less than the conversion price of \$21.94 per share, and, therefore, the Notes are excluded from Diluted EPS. The Capped Call is not reflected in diluted net income per share as it will always be anti-dilutive.

3. FAIR VALUE MEASUREMENTS

Assets Measured at Fair Value on a Recurring Basis

We measure deferred compensation investments on a recurring basis. As of June 30, 2019 and December 31, 2018, our deferred compensation investments were classified as either Level 1 or Level 2 in the fair value hierarchy. Assets valued using quoted market prices in active markets and classified as Level 1 are money market and mutual funds. Assets valued based on other observable inputs and classified as Level 2 are insurance contracts.

The following tables summarize our deferred compensation investments measured at fair value on a recurring basis (in thousands):

Financial Instruments Not Recorded at Fair Value

The carrying amounts of our other financial assets and liabilities including cash, accounts receivable, accounts payable and accrued liabilities approximate their respective fair values because of the relatively short period of time between their origination and their expected realization or settlement. As of June 30, 2019, the net carrying amount of the Notes was \$27.5 million, and the fair value of the Notes was approximately \$28.3 million based on open market trading activity, which constitutes a Level 1 input in the fair value hierarchy.

4. INVENTORIES

Inventories consisted of the following (in thousands):

	June 30, 2019	December 31, 2018
Raw materials	\$ 11,619	\$ 10,520
Work in process	571	527
Finished goods	21,915	21,909
Total	\$ 34,105	\$ 32,956

As of June 30, 2019 and December 31, 2018, finished goods inventory included \$1.5 million and \$2.1 million, respectively, associated with products shipped to customers and deferred labor costs for arrangements where revenue recognition had not yet commenced.

5. INTANGIBLE ASSETS AND GOODWILL

Amortizing identifiable intangible assets related to our acquisitions or capitalized costs of internally developed or externally purchased software that form the basis for our products consisted of the following (in thousands):

	June 30, 2019			December 31, 2018		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Completed technologies and patents	\$ 58,311	\$ (58,311)	\$ —	\$ 58,246	\$ (54,508)	\$ 3,738

Capitalized software costs	4,911	(4,911)	—	4,911	(4,911)	—
Total	\$ 119,358	\$ (119,358)	\$ —	\$ 119,489	\$ (115,057)	\$ 4,432

Amortization expense related to intangible assets in the aggregate was \$2.1 million and \$2.3 million for the three months ended June 30, 2019 and 2018, respectively, and \$4.4 million and \$4.6 million for the six months ended June 30, 2019 and 2018, respectively. As of June 30, 2019, intangible assets are fully amortized.

The acquisition of Orad in 2015 resulted in goodwill of \$32.6 million as of June 30, 2019 and December 31, 2018.

6. LEASES

We have entered into a number of facility leases to support our research and development activities, sales operations and other corporate and administrative functions in North America, Europe, and Asia, which qualify as operating leases under U.S. GAAP. We also have a limited number of equipment leases that also qualify as operating leases. We determine if contracts with vendors represent a lease or have a lease component under U.S. GAAP at contract inception. We do not have any finance leases as of June 30, 2019. Our leases have remaining terms ranging from one year to nine years. Some of our leases include options to extend or terminate the lease prior to the end of the agreed upon lease term. For purposes of calculating lease liabilities, lease terms include options to extend or terminate the lease when it is reasonably certain that we will exercise such options.

Operating lease right of use assets and liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the lease commencement date. As our leases generally do not provide an implicit rate, we use an estimated incremental borrowing rate in determining the present value of future payments. The incremental borrowing rate represents an estimate of the interest rate we would incur at lease commencement to borrow an amount equal to the lease payments on a collateralized basis over the term of a lease within a particular location and currency environment. We used an average incremental borrowing rate of 6% as of January 1, 2019, the adoption date of ASC 842, for our leases that commenced prior to that date. The operating leases are included in "Right of use assets", "Accrued expenses and other current liabilities", and "Long-term lease liabilities" on our condensed consolidated balance sheets as of June 30, 2019.

The weighted-average remaining lease term of our operating leases is 7.1 years as of June 30, 2019. Lease costs for minimum lease payments is recognized on a straight-line basis over the lease term. Our total lease costs were \$2.3 million and \$4.8 million for the three and six months ended June 30, 2019, respectively, and related cash payments were \$2.4 million and \$4.9 million for the three and six months ended June 30, 2019, respectively. Lease costs are included within research and development, marketing and selling, and general and administrative lines on the condensed consolidated statements of operations, and the related cash payments are included in the operating cash flows on the condensed consolidated statements of cash flows. Short-term lease costs, variable lease costs and sublease income are not material.

The table below reconciles the undiscounted future minimum lease payments under non-cancellable leases with terms of more than one year to the total lease liabilities recognized on the condensed consolidated balance sheets as of June 30, 2019 (in thousands):

Year Ending December 31,	Operating Leases	
2019 (excluding six months ended June 30, 2019)	\$	4,853
2020		8,501
2021		5,925
2022		5,177
2023		4,313

Total future minimum lease payments	\$	47,812
Less effects of discounting		(9,341)
Total lease liabilities	\$	38,471
Reported as of June 30, 2019		
Accrued expenses and other current liabilities	\$	7,255
Long-term lease liabilities		31,216
Total lease liabilities	\$	38,471

The future minimum lease commitments under non-cancelable leases at December 31, 2018 were as follows (in thousands):

Year Ending December 31,		
2019	\$	11,225
2020		9,784
2021		6,850
2022		5,982
2023		4,754
Thereafter		20,040
Total	\$	58,635

7. OTHER LONG-TERM LIABILITIES

Other long-term liabilities consisted of the following (in thousands):

	June 30, 2019	December 31, 2018
Deferred rent	\$ —	\$ 5,122
Accrued restructuring	135	188
Deferred compensation	4,755	4,992
Other	377	—
Total	\$ 5,267	\$ 10,302

As disclosed in Note 1, \$5.1 million of deferred rent liabilities was reclassified upon the adoption of ASC 842 on January 1, 2019 as we recorded our leases in the caption “Right of use assets”, “Accrued expenses and other current liabilities”, and “Long-term lease liabilities” on our condensed consolidated balance sheets as of June 30, 2019.

8. COMMITMENTS AND CONTINGENCIES

Commitments

We entered into a long-term agreement to purchase a variety of information technology solutions from a third party in the second quarter of 2017, which included an unconditional commitment to purchase a minimum of \$12.8 million of products and services over the initial three years of the agreement. We have purchased \$7.2 million of products and services pursuant to this agreement as of June 30, 2019.

We have letters of credit that are used as security deposits in connection with our leased Burlington, Massachusetts office space. In the event of default on the underlying leases, the landlords would, at June 30, 2019, be eligible to draw against the letters of credit to a maximum of \$1.3 million in the aggregate. The letters of credit are subject to aggregate reductions provided that we are not in default under the underlying leases and meet certain financial performance conditions. In no case will the letters of credit amounts for the Burlington leases be reduced to below \$1.2 million in the aggregate throughout the lease periods.

We also have letters of credit in connection with security deposits for other facility leases totaling \$1.0 million in the aggregate, as well as letters of credit totaling \$1.4 million that otherwise support our ongoing operations. These letters of credit have various terms and expire during 2019 and beyond, while some of the letters of credit may automatically renew based on the terms of the underlying agreements.

We issued a letter of credit totaling \$8.5 million to one of our former sole-source suppliers in February 2018. The supplier was eligible to draw on the letter of credit in the event that we were insolvent or unable to pay on our purchase orders for certain key hardware components of our product. The letter of credit was terminated as we have exited our relationship with this contract manufacturer and \$8.5 million of restricted cash that was pledged as collateral was returned to us in July 2019.

Substantially all of our letters of credit are collateralized by restricted cash included in the caption "Restricted cash" and "Other long-term assets" on our condensed consolidated balance sheets as of June 30, 2019.

Contingencies

Our industry is characterized by the existence of a large number of patents and frequent claims and litigation regarding patent and other intellectual property rights. In addition to the legal proceedings described above, we are involved in legal proceedings from time to time arising from the normal course of business activities, including claims of alleged infringement of intellectual property rights and contractual, commercial, employee relations, product or service performance, or other matters. We do not believe these matters will have a material adverse effect on our financial position or results of operations. However, the outcome of legal proceedings and claims brought against us is subject to significant uncertainty. Therefore, our financial position or results of operations may be negatively affected by the unfavorable resolution of one or more of these proceedings for the period in which a matter is resolved. Our results could be materially adversely affected if we are accused of, or found to be, infringing third parties' intellectual property rights.

Following the termination of our former Chairman and Chief Executive Officer on February 25, 2018, we received a notice alleging that we breached the former employee's employment agreement. On April 16, 2019 we received an additional notice again alleging we breached the former employee's employment agreement. We have since been in communications with our former Chairman and Chief Executive Officer's counsel. While we intend to defend any claim vigorously, when and if a claim is actually filed, we are currently unable to estimate an amount or range of any reasonably possible losses that could occur as a result of this matter.

We consider all claims on a quarterly basis and based on known facts assess whether potential losses are considered reasonably possible, probable and estimable. Based upon this assessment, we then evaluate disclosure requirements and whether to accrue for such claims in our condensed consolidated financial statements. We record a provision for a liability when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. These provisions are reviewed at least quarterly and adjusted to reflect the impacts of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular case.

At June 30, 2019 and as of the date of filing of these condensed consolidated financial statements, we believe that, other than as set forth in this note, no provision for liability nor disclosure is required related to any claims because: (a) there is no reasonable possibility that a loss exceeding amounts already recognized (if any) may be incurred with respect to such claim, (b) a reasonably possible loss or range of loss cannot be estimated; or (c) such estimate is immaterial.

Additionally, we provide indemnification to certain customers for losses incurred in connection with intellectual property infringement claims brought by third parties with respect to our products. These indemnification provisions generally offer perpetual coverage for infringement claims based upon the products covered by the agreement and the maximum potential amount of future payments we could be required to make under these indemnification provisions is theoretically unlimited. To date, we have not incurred material costs related to these indemnification provisions; accordingly, we believe the estimated fair value of these indemnification provisions is immaterial. Further, certain of our arrangements with customers include clauses whereby we may be subject to penalties for failure to meet certain performance obligations; however, we have not recorded any related material penalties to date.

We provide warranties on externally sourced and internally developed hardware. For internally developed hardware, and in cases where the warranty granted to customers for externally sourced hardware is greater than that provided by the manufacturer, we record an accrual for the related liability based on historical trends and actual material and labor costs. The following table sets forth the activity in the product warranty accrual account for the six months ended June 30, 2019 and 2018 (in thousands):

	Six Months Ended June 30,	
	2019	2018
Accrual balance at beginning of year	\$ 1,706	\$ 2,545
Accruals for product warranties	440	1,073
Costs of warranty claims	(675)	(1,201)
Accrual balance at end of period	<u>\$ 1,471</u>	<u>\$ 2,417</u>

The warranty accrual is included in the caption “accrued expenses and other current liabilities” in our condensed consolidated balance sheet.

9. RESTRUCTURING COSTS AND ACCRUALS

In February 2016, we committed to a cost efficiency program that encompassed a series of measures intended to allow us to more efficiently operate in a leaner, more directed cost structure. These included reductions in our workforce, consolidation of facilities, transfers of certain business processes to lower cost regions, and reductions in other third-party services costs.

During the three months ended June 30, 2019, we recorded restructuring recoveries of \$0.3 million for employee severance cost adjustments. For the six months ended June 30, 2019, the \$0.3 million recoveries partially offset charges of \$0.6 million for employee severance cost adjustments recorded during the three months ended March 31, 2019.

During the three and six months ended June 30, 2018, we recorded restructuring charges of \$0.3 million and \$3.2 million, respectively. The restructuring charges for the six months ended June 30, 2018 included \$0.8 million of severance costs adjustments, \$1.5 million facility restructuring accrual adjustments resulted from the consolidation of our facilities in Burlington, Massachusetts, and \$0.9 million of leasehold improvement write-off.

Restructuring Summary

The following table sets forth restructuring expenses recognized for the three and six months ended June 30, 2019 and 2018 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,

Long-term accrual balance as of June 30, 2019	\$ —	\$ 135	\$ 135

The employee restructuring accrual at June 30, 2019 represents severance costs to former employees that will be paid out within 12 months, and is, therefore, included in the caption “accrued expenses and other current liabilities” in our condensed consolidated balance sheets as of June 30, 2019.

The facility restructuring accrual at June 30, 2019 represents contractual lease payments, net of actual or estimated sublease income, on space vacated as part of our restructuring actions. The leases, and payments against the amounts accrued, extend through 2026 unless we are able to negotiate earlier terminations. Of the total facility restructuring balance, \$0.1 million is included in the caption “accrued expenses and other current liabilities” and \$0.1 million is included in the caption “other long-term liabilities” in our condensed consolidated balance sheet as of June 30, 2019.

10. REVENUE

Disaggregated Revenue and Geography Information

Through the evaluation of the discrete financial information that is regularly reviewed by the chief operating decision makers (our chief executive officer and chief financial officer), we have determined that we have one reportable segment.

The following table is a summary of our revenues by type for the three and six months ended June 30, 2019 and 2018 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018

Deferred Revenue

Deferred revenue activity for the six months ended June 30, 2019 was as follows (in thousands):

	June 30, 2019
Deferred revenue at January 1, 2019	\$ 99,601
Billings deferred	55,310
Recognition of prior deferred revenue	(61,395)
Deferred revenue at June 30, 2019	\$ 93,516

A summary of the significant performance obligations included in deferred revenue as of June 30, 2019 is as follows (in thousands):

	June 30, 2019
Product	\$ 7,288
Subscription	1,350
Support contracts	69,062
Implied PCS	14,033
Professional services, training and other	1,783
Deferred revenue at June 30, 2019	<u>\$ 93,516</u>

Remaining Performance Obligations

For transaction prices allocated to remaining performance obligations, we apply practical expedients and do not disclose quantitative or qualitative information for remaining performance obligations (i) that have original expected durations of one year or less and (ii) where we recognize revenue equal to what we have the right to invoice and that amount corresponds directly with the value to the customer of our performance to date.

Historically, for many of our products, we had an ongoing practice of making when-and-if-available software updates available to customers free of charge for a period of time after initial sales to customers. The expectation created by this practice of providing free Software Updates represents an implied obligation of a form of post-contract customer support (“Implied PCS”) which represents a performance obligation. While we have ceased providing Implied PCS on new product offerings, we continue to provide Implied PCS for older products that were predominately sold in prior years. Revenue attributable to Implied PCS performance obligations is recognized over time on a ratable basis over the period that Implied PCS is expected to be provided, which is typically six years. We have remaining performance obligations of \$14.0 million attributable to Implied PCS recorded in deferred revenue as of June 30, 2019. We expect to recognize revenue for these remaining performance obligations of \$3.2 million for the remainder of 2019 and \$4.8 million, \$2.9 million, \$1.6 million and \$0.9 million for the years ended December 31, 2020, 2021, 2022, and 2023, respectively.

As of June 30, 2019, we had approximately \$55.8 million of transaction price allocated to remaining performance obligations for certain enterprise agreements that have not yet been fully invoiced. Approximately \$54.3 million of these performance obligations were unbilled as of June 30, 2019. Remaining performance obligations represent obligations we must deliver for specific products and services in the future where there is not yet an enforceable right to invoice the customer. Our remaining performance obligations do not include contractually committed minimum purchases that are common in our strategic purchase agreements with resellers since our specific obligations to deliver products or services is not yet known, as customers may satisfy such commitments by purchasing an unknown combination of current or future product offerings. While the timing of fulfilling individual performance obligations under the contracts can vary dramatically based on customer requirements, we expect to recognize the \$55.8 million in roughly equal installments through 2026.

Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations due to contract breach, contract amendments and changes in the expected timing of delivery.

11. LONG-TERM DEBT AND CREDIT AGREEMENT

Long-term debt consisted of the following (in thousands):

	June 30, 2019	December 31, 2018
Term Loan, net of unamortized debt issuance costs of \$3,822 at June 30, 2019 and \$2,613 at December 31, 2018	\$ 200,255	\$ 122,811

2.00% Convertible Senior Notes due 2020

On June 15, 2015, we issued \$125.0 million aggregate principal amount of our Notes in an offering conducted in accordance with Rule 144A under the Securities Act of 1933. The Notes pay interest semi-annually on June 15 and December 15 of each year at an annual rate of 2.00% and mature on June 15, 2020, unless earlier repurchased or converted in accordance with their terms prior to such date. Total interest expense for the three and six months ended June 30, 2019 was \$1.5 million and \$3.4 million, respectively, reflecting the coupon and accretion of the discount.

During 2017, we purchased 2,000 of our 125,000 outstanding Notes and settled \$2.0 million of the Notes for \$1.7 million in cash. We recorded \$2.0 million extinguishment of debt, an immaterial amount of equity reacquisition, and an immaterial loss on the extinguishment of debt.

During 2018, we purchased an additional 16,247 of our 123,000 outstanding Notes and settled another \$16.2 million of the Notes for \$14.7 million in cash. We recorded \$16.2 million extinguishment of debt, an immaterial amount of equity reacquisition, and an immaterial gain on the extinguishment of debt.

On January 22, 2019, we purchased an additional 3,900 of our 106,753 outstanding Notes and settled another \$3.9 million of the Notes for \$3.6 million in cash. We recorded \$3.9 million extinguishment of debt, an immaterial amount of equity reacquisition, and an immaterial gain on the extinguishment of debt.

On April 11, 2019, we announced the commencement of a cash tender offer (the “Offer”) for any and all of our outstanding Notes. On May 9, 2019, as of the expiration of the Offer, Notes with an aggregate principal amount of \$74.0 million were validly tendered. We accepted for purchase all Notes that were validly tendered at the expiration of the Offer at a purchase price equal to \$982.50 per \$1,000 principal amount of Notes, and settled the Offer on May 13, 2019 for \$72.7 million in cash. We recorded \$74.0 million extinguishment of debt, \$0.6 million of equity reacquisition, and \$2.9 million loss on the extinguishment of debt which is included in the caption “Interest and other expense, net” in our condensed consolidated statement of operations for the three and six months ended June 30, 2019. In connection with the Offer, the number of options under the Capped Call was reduced to 28,867 to mirror the remaining principal outstanding for the Notes, and an immaterial partial unwind cash payment was received in May 2019.

Term Loan and Credit Facility

On February 26, 2016, we entered into a financing agreement (the “Financing Agreement”) with Cerberus Business Finance, LLC, as collateral and administrative agent, and the lenders party thereto (the “Lenders”). The Lenders originally agreed to provide us with (a) a term loan in the aggregate principal amount of \$100.0 million (the “Term Loan”), and (b) a revolving credit facility (the “Credit Facility”) of up to a maximum of \$5.0 million in borrowings outstanding at any time. We granted a security interest on substantially all of our assets to secure the obligations under the Term Loan and the Credit Facility. The Term Loan requires us to use 50% of excess cash flow, as defined in the Financing Agreement, to repay outstanding principal of the loans under the Financing Agreement. The Financing Agreement contains customary representations and warranties, covenants, mandatory prepayments, and events of default under which our payment obligations may be accelerated.

On November 9, 2017, we entered into an amendment and borrowed an additional \$15.0 million term loan and increased the amount available under the Credit Facility by \$5.0 million.

On May 10, 2018, we entered into an amendment to the Financing Agreement, which extended the maturity of the Financing Agreement to May 2023, and increased the Term Loan by \$22.7 million and the amount available under the Credit Facility by \$12.5 million, for an aggregate amount available of \$22.5 million. Under the terms of the amendment, aggregate quarterly principal repayments beginning September 30, 2018 through June 30, 2020 will be \$318,750, then from July 1, 2020 through June 30, 2021 equal to \$796,875, finally from July 1, 2021 through May 10, 2023 equal to \$1,593,750.

On April 8, 2019, we entered into an amendment to the Financing Agreement. The amendment provides for an additional delayed draw term loan commitment in the aggregate principal amount of \$100.0 million (the “Delayed Draw Funds”) for the purpose of funding the purchase of a portion of Notes in the tender offer described above. On May 2, 2019, we received the Delayed Draw Funds under the Financing Agreement. We used \$72.7 million of the Delayed Draw Funds for the purchase of a portion of our Notes, \$0.6 million for the Notes interest payment, and \$6.0 million for refinancing fees payment. On June 18, 2019, we repaid \$20.7 million unused Delayed Draw Funds under the Financing Agreement. The \$79.3 million Delayed Draw Funds used will mature on May 10, 2023 under the Financing Agreement, and interest accrues on the Delay Draw Funds and the existing outstanding borrowings under the Financing Agreement at a rate of either the LIBOR Rate (as defined in the Financing Agreement) plus 6.25% or a Reference Rate (as defined in the Financing Agreement) plus 5.25%, at our option. The amendment also modified the covenant that requires us to maintain a leverage ratio based on the level of availability of our Credit Facility plus unrestricted cash on-hand.

The Financing Agreement amendment effective April 8, 2019 was accounted for as a debt modification, and therefore, \$1.6 million of the refinancing fees paid directly to the Lenders was recorded as deferred debt issuance costs, and \$4.4 million of the refinancing fees paid to the third parties was expensed and included in the caption “Interest and other expense, net” in our condensed consolidated statement of operations for the three and six months ended June 30, 2019. We recorded \$4.2 million and \$7.1 million of interest expense on the Term Loan during the three and six months ended June 30, 2019, respectively. There were no amounts outstanding under the Credit Facility as of June 30, 2019. We were in compliance with the Financing Agreement covenants as of June 30, 2019.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

EXECUTIVE OVERVIEW

Business Overview

We develop, market, sell, and support software and integrated solutions for video and audio content creation, management and distribution. We are a leading technology provider that powers the media and entertainment industry. We do this by providing an open and efficient platform for digital media, along with a comprehensive set of tools and workflow solutions. Our solutions are used in production and post-production facilities; film studios; network, affiliate, independent and cable television stations; recording studios; live-sound performance venues; advertising agencies; government and educational institutions; corporate communications departments; and by independent video and audio creative professionals, as well as aspiring professionals. Projects produced using our tools, platform and ecosystem include feature films, television programming, live events, news broadcasts, sports productions, commercials, music, video and other digital media content. With over one million creative users and thousands of enterprise clients relying on our technology platforms and solutions around the world, Avid enables the industry to thrive in today's connected media and entertainment world.

Our mission is to empower media creators with innovative technology and collaborative tools to entertain, inform, educate and enlighten the world. Our clients rely on Avid to create the most prestigious and award-winning feature films, music recordings, television shows, live concerts, sporting events and news broadcasts. Avid has been honored for technological innovation with 16 Emmy Awards, one Grammy Award, two Oscars and the first ever America Cinema Editors Technical Excellence Award. In 2018, Avid was named the recipient of the prestigious Philo T. Farnsworth Award by the Television Academy, to honor Avid's 30 years of continuous, transformative technology innovations, including products that have improved and accelerated the entire editing and post production process for television. Our creative tools and workflow solutions were used in all 2019 Oscar nominated films for Best Film Editing, Best Sound Editing, Best Sound Mixing, and Best Picture.

Operations Overview

Our strategy for connecting creative professionals and media enterprises with audiences in a powerful, efficient, collaborative, and profitable way leverages our Avid MediaCentral Platform - the open, extensible, and customizable foundation that streamlines and simplifies content workflows by integrating all Avid or third-party products and services that run on top of it. The platform provides secure and protected access, and enables fast and easy creation, delivery and monetization of content.

We work to ensure that we are meeting customer needs, staying ahead of industry trends and investing in the right areas through a close and interactive relationship with our customer base. The Avid Customer Association was established to be the world's most innovative and influential media technology community representing thousands of organizations and over 27,000 professionals from all levels of the industry including the industry's most inspirational and award-winning thought leaders, innovators and storytellers. The Avid Customer Association fosters collaboration between Avid, its customers and other industry colleagues to help shape our product offerings as well as providing a means to shape our industry together.

A key element of our strategy is our transition to a recurring revenue-based model, through a combination of subscription offerings and long-term agreements. We started offering subscription licensing options for some of our products and solutions in 2014, and had approximately 147,000 paying subscribers at the end of the second quarter of 2019. These licensing options offer choices in pricing and deployment to suit our customers' needs. While our subscription offerings to date have primarily been sold to creative professionals, going forward, we expect to increase subscription sales to media enterprises as we expand offerings and move through customer upgrade cycles, which we expect will further increase recurring revenue on a longer-term basis. Our long-term agreements are comprised of multi-year agreements with large media enterprise customers to provide specified products and services, including SaaS offerings, and channel partners and resellers to purchase minimum amounts of products and service over a specified period of time. We believe our strategy to increase recurring revenue will continue to increase our visibility of revenue and cash flows in future periods.

Another key aspect of our strategy has been to implement programs to increase operational efficiencies and reduce costs. We are making significant changes in business operations to better support the company's strategy and overall performance. We have implemented a number of spending control initiatives with an emphasis on non-personnel costs to reduce the overall cost structure while still investing in key areas that will drive growth. We are also revamping our supply chain and logistics, moving to a lean model that leverages a new supplier and distribution network. We are optimizing our go-to-market strategy, simplifying

our strategy to address specific customer markets to help maximize our commercial success, which we expect will improve effectiveness, while increasing efficiency and driving growth of our pipeline and ultimately revenue.

A summary of our revenue sources for the three and six months ended June 30, 2019 and 2018 is as follows (in thousands):

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. We base our estimates and judgments on historical experience and various other factors we believe to be reasonable under the circumstances, the results of which form the basis for judgments about the carrying values of assets and liabilities and the amounts of revenues and expenses. Actual results may differ from these estimates.

We believe that our critical accounting policies and estimates are those related to revenue recognition and allowances for sales returns and exchanges; discount rates used for lease liabilities, stock-based compensation; income tax assets and liabilities; and restructuring charges and accruals. We believe these policies and estimates are critical because they most significantly affect the portrayal of our financial condition and results of operations and involve our most complex and subjective estimates and judgments. A discussion of our critical accounting policies and estimates may be found in our Annual Report on Form 10-K for the year ended December 31, 2018 in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," under the heading "Critical Accounting Policies and Estimates" and below. There have been no significant changes to the identification of the accounting policies and estimates that are deemed critical.

Revenue Recognition

We enter into contracts with customers that include various combinations of products and services, which are typically capable of being distinct and are accounted for as separate performance obligations. We account for a contract when (i) it has approval and commitment from both parties, (ii) the rights of the parties have been identified, (iii) payment terms have been identified, (iv) the contract has commercial substance and (v) collectibility is probable. We recognize revenue upon transfer of control of promised products or services to customers, which typically occurs upon shipment or delivery depending on the terms of the underlying contracts, in an amount that reflects the consideration we expect to receive in exchange for those products or services.

We often enter into contractual arrangements that have multiple performance obligations, one or more of which may be delivered subsequent to the delivery of other performance obligations. These arrangements may include a combination of products, support, training and professional services. We allocate the transaction price of the arrangement based on the relative estimated standalone selling price of each distinct performance obligation.

See Note 10 for disaggregated revenue schedules and further discussion on revenue and deferred revenue performance obligations and the timing of revenue recognition.

Leases

We have operating leases for facilities and certain equipment in North America, Europe and Asia. Our operating lease right-of-use assets and liabilities are recognized based on the present value of the future minimum lease payments over the lease term at commencement date. As our leases generally do not provide an implicit rate, we use our incremental borrowing rate based on the information available at commencement date in determining the present value of future payments. An average incremental borrowing rate of 6% as of January 1, 2019, the adoption date of ASC 842, was used for our leases that commenced prior to that date. We determined that the rate of 6% is appropriate for our operating leases after we considered an estimated incremental borrowing rate provided by our bank, the interest rate of our Term Loan, and the terms and geographic locations of our facilities. For the \$38.0 million we recorded as the net lease liabilities as of January 1, 2019 that was calculated using a 6% discount rate, an increase or decrease in the discount rate of 2% would have an impact of approximately \$3.0 million on the net lease liabilities recorded. See Note 6 for further discussion on our leases.

RESULTS OF OPERATIONS

The following table sets forth certain items from our condensed consolidated statements of operations as a percentage of net revenues for the three and six months ended June 30, 2019 and 2018:

Net Revenues

Our net revenues are derived mainly from sales of products and solutions for digital media content production, management and distribution, and related professional services and maintenance contracts. We commonly sell large, complex solutions to our customers that, due to their strategic nature, have long lead times where the timing of order execution and fulfillment can be difficult to predict. In addition, the rapid evolution of the media industry is changing our customers' needs, businesses and revenue models, which is influencing their short-term and long-term purchasing decisions. As a result of these factors, the timing and amount of product revenue recognized each quarter related to these large orders, as well as the services associated with them, can fluctuate from quarter to quarter and cause significant volatility in our quarterly operating results. For a discussion of these factors, see the risk factors discussed in Part I - Item 1A under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2018.

Products and Solutions Revenues

Our products and solutions revenues are derived primarily from sales of our storage and workflow solutions, media management solutions, video creative tools, digital audio software and workstation solutions, and our control surfaces, consoles and live-sound systems. Products and solutions revenues increased \$3.9 million, or 8.5%, for the three months ended June 30, 2019, and increased \$11.9 million, or 12.9%, for the six months ended June 30, 2019, compared to the same periods in 2018. The increases were primarily due to strong growth in our storage product sales, control surfaces and live-sound consoles sales.

Services Revenues

Services revenues are derived primarily from maintenance contracts, as well as professional services and training. Services revenues decreased \$3.9 million, or 7.4%, for the three months ended June 30, 2019, and decreased \$6.5 million, or 6.2%, for the six months ended June 30, 2019, compared to the same periods in 2018. The decreases were primarily due to (i) the timing of large projects, (ii) efforts to rationalize profitability of professional services by taking on fewer low margin projects, and (iii) lower maintenance revenues during the three and six months ended June 30, 2019, compared to the same periods in 2018.

Cost of Revenues, Gross Profit and Gross Margin Percentage

Cost of revenues consists primarily of costs associated with:

- procurement of components and finished goods;
- assembly, testing and distribution of finished products;
- warehousing;
- customer support related to maintenance;
- royalties for third-party software and hardware included in our products;
- amortization of technology; and
- providing professional services and training.

Amortization of technology represents the amortization of developed technology assets acquired as part of acquisitions.

Gross Margin Percentage

Gross margin percentage, which is net revenues less costs of revenues divided by net revenues, fluctuates based on factors such as the mix of products sold, the cost and proportion of third-party hardware and software included in the systems sold, the offering of product upgrades, price discounts and other sales-promotion programs, the distribution channels through which products are sold, the timing of new product introductions, sales of aftermarket hardware products such as disk drives and currency exchange-rate fluctuations. For a discussion of these factors, see the risk factors discussed in Part I - Item 1A under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2018. Our gross margin percentage for the three months ended June 30, 2019 increased to 57.4% from 57.1% for the same period in 2018, and gross margin percentage for the six months ended June 30, 2019 increased to 58.4% from 57.0% for the same period in 2018. These increases were primarily due to a favorable mix of high margin product revenues, increased products and solutions revenue and cost savings from our programs to increase operational efficiencies.

Research and Development Expenses

Research and development (“R&D”) expenses include costs associated with the development of new products and the enhancement of existing products, and consist primarily of employee compensation and benefits; facilities costs; depreciation; costs for consulting and temporary employees; and prototype and other development expenses. R&D expenses decreased \$0.8 million, or 5.0%, for the three months ended June 30, 2019, and decreased \$0.2 million, or 0.6%, for the six months ended June 30, 2019, compared to the same periods in 2018. The table below provides further details regarding the changes in components of R&D expenses.

Consulting and outside services	(758)	(14.7)%
Other	26	2.1 %
Total R&D expenses decrease	<u>\$ (205)</u>	<u>(0.6)%</u>

The increase in personnel-related expenses for the six months ended June 30, 2019, compared to the same period in 2018, was primarily due to the capitalization of certain R&D labor costs for the six months ended June 30, 2018. The capitalized R&D labor costs were related to our SaaS product platform development, and were not material for the six months ended June 30, 2019 as new projects were in an early stage. We expect to capitalize additional R&D labor costs in the remaining quarters of 2019 as the SaaS product platform development work continues. The decreases in consulting and outside services and facilities and information technology expenses for the three and six months ended June 30, 2019, compared to the same periods in 2018, were primarily due to the funding received from a third party for the milestones we achieved on our cloud based products, and the result of our programs to increase operational efficiencies and reduce costs.

Marketing and Selling Expenses

Marketing and selling expenses consist primarily of employee compensation and benefits for selling, marketing and pre-sales customer support personnel; commissions; travel expenses; advertising and promotional expenses; web design costs and facilities costs. Marketing and selling expenses decreased \$1.6 million, or 5.9%, for the three months ended June 30, 2019, and decreased \$2.9 million, or 5.4%, for the six months ended June 30, 2019, compared to the same periods in 2018. The table below provides further details regarding the changes in components of marketing and selling expenses.

The decreases in personnel-related expenses and advertising and promotions expenses for the three and six months ended June 30, 2019, compared to the same periods in 2018, were primarily the result of our programs to increase operational efficiencies and reduce costs. The increases in foreign exchange translations for the three and six months ended June 30, 2019, compared to the same periods in 2018, were due to more foreign exchange losses resulted from foreign currency denominated transactions and the revaluation of foreign currency denominated assets and liabilities. The changes were primarily due to the euro-dollar exchange rate volatility.

General and Administrative Expenses

General and administrative (“G&A”) expenses consist primarily of employee compensation and benefits for administrative, executive, finance and legal personnel; audit, legal and strategic consulting fees; and insurance, information systems and facilities costs. Information systems and facilities costs reported within general and administrative expenses are net of allocations to other expenses categories. G&A expenses decreased \$1.3 million, or 9.4%, for the three months ended June 30, 2019, and decreased \$1.5 million, or 5.3%, for the six months ended June 30, 2019, compared to the same periods in 2018. The table below provides further details regarding the changes in components of G&A expenses.

Change in G&A Expenses for the Three Months Ended June 30, 2019 and 2018

	(dollars in thousands)	
	2019 Decrease From 2018	
	\$	%
Personnel-related	\$ (1,188)	(17.5)%
Consulting and outside services	(132)	(3.4)%
Total G&A expenses decrease	\$ (1,320)	(9.4)%

Change in G&A Expenses for the Six Months Ended June 30, 2019 and 2018

(dollars in thousands)

	2019 Decrease From 2018	
	\$	%
Consulting and outside services	\$ (1,160)	(12.5)%
Facilities and information technology	(226)	(5.2)%
Other	(101)	(0.7)%
Total G&A expenses decrease	<u>\$ (1,487)</u>	<u>(5.3)%</u>

The decrease in personnel-related expenses for the three months ended June 30, 2019, compared to the same period in 2018, was primarily the result of our spending control initiatives and decrease in incentive-based compensation accrual. The decreases in consulting and outside services for the three and six months ended June 30, 2019, compared to the same periods in 2018, were primarily due to lower legal expenses.

Interest and other expense, net

The increases in interest and other expenses, net for the three and six months ended June 30, 2019, compared to the same periods in 2018, were the result of the Financing Agreement amendment effective April 8, 2019 and the purchase of a portion of our Notes in May 2019. We recorded \$4.4 million of refinancing fees and \$2.9 million loss on the extinguishment of debt during the three months ended June 30, 2019.

Provision for Income Taxes

Provision for Income Taxes for the Three Months Ended June 30, 2019 and 2018

	2019		Change		2018
	\$	%	\$	%	
Provision for income taxes	\$ —		\$ (144)	(100.0)%	\$ 144

(dollars in thousands)

	2019		Change		2018
	\$	%	\$	%	
Provision for income taxes	\$ 438		\$ 39	9.8%	\$ 399

The tax provision decrease for the three months ended June 30, 2019, compared to the same period in 2018, is primarily due to the decrease in worldwide pre-tax income. No benefit was provided for the tax loss generated in the United States due to a full valuation on the deferred tax asset. In addition, the estimated annual effective tax rate excluded the United States due to its pre-tax loss position. In certain foreign jurisdictions that currently have full valuation allowances, we have been experiencing improved profitability due to better operating results and expect to have greater access to beneficial tax attributes as a result of pending legal reorganizations. As a result of these factors, we may be required to reverse valuation allowances recorded against certain international deferred tax assets in the near future which would result in a material non-cash income tax benefit in the quarter the realizability of the respective deferred taxes was deemed to be more likely than not and would increase non-cash income tax expense in periods subsequent to the reversal.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity and Sources of Cash

Our principal sources of liquidity include cash and cash equivalents totaling \$51.0 million as of June 30, 2019. We have generally funded operations in recent years through the use of existing cash balances, supplemented from time to time with the proceeds of long-term debt and borrowings under our credit facilities.

On April 8, 2019, we entered into an amendment to the Financing Agreement. The amendment provides for an additional delayed draw term loan commitment in the aggregate principal amount of \$100 million (the “Delayed Draw Funds”) for the purpose of funding the purchase of a portion of Notes in a tender offer described below. On May 2, 2019, we received the Delayed Draw Funds under the Financing Agreement. We used \$72.7 million of the Delayed Draw Funds for the purchase of a portion of our Notes, \$0.6 million for the Notes interest payment, and \$6.0 million for refinancing fees payment. On June 18, 2019, we repaid \$20.7 million unused Delayed Draw Funds under the Financing Agreement. The \$79.3 million Delayed Draw Funds used will mature on May 10, 2023 under the Financing Agreement, and interest accrues on the Delay Draw Funds and the existing outstanding borrowings under the Financing Agreement at a rate of either the LIBOR Rate (as defined in the Financing Agreement) plus 6.25% or a Reference Rate (as defined in the Financing Agreement) plus 5.25%, at our option. The amendment also modified the covenant that requires us to maintain a leverage ratio based on the level of availability of our Credit Facility plus unrestricted cash on-hand.

After completing the refinancing, we have \$28.9 million of principal payments remaining on the Notes, which mature in June 2020. We plan to repay the Notes in cash when they come due through available liquidity, which includes (i) cash on hand, including \$8.5 million of cash that was released from restriction in July 2019 in connection with our exiting of a relationship with a contract manufacturer, and (ii) availability under our \$22.5 million revolving credit facility which is currently undrawn.

Our ability to satisfy the leverage ratio covenant in the future is dependent on our ability to maintain revenues at or above levels experienced over the last 12 months. In recent quarters, we have experienced volatility in revenues resulting from, among other things, (i) our transition towards subscription and recurring revenue streams and the resulting decline in traditional upfront product sales, (ii) dramatic changes in the media industry and the impact it has on our customers, (iii) the impact of new and anticipated product launches and features, and (iv) volatility in currency rates.

In the event revenues in future quarters are lower than we currently anticipate, we may be forced to take remedial actions which could include, among other things (and where allowed by the lenders), (i) further cost reductions, (ii) seeking replacement financing, (iii) raising funds through the issuance of additional equity or debt securities or the incurrence of additional borrowings, or (iv) disposing of certain assets or businesses. Such remedial actions, which may not be available on favorable terms or at all, could have a material adverse impact on our business. If we are not in compliance with the leverage ratio covenant and are unable to obtain an amendment or waiver, such noncompliance may result in an event of default under the Financing Agreement, which could permit acceleration of the outstanding indebtedness under the Financing Agreement and require us to repay such indebtedness before the scheduled due date. If an event of default were to occur, we might not have sufficient funds available to make the payments required. If we are unable to repay amounts owed, the lenders may be entitled to foreclose on and sell substantially all of our assets, which secure our borrowings under the Financing Agreement.

Our cash requirements vary depending on factors such as the growth of the business, changes in working capital, capital expenditures, and obligations under our cost efficiency program. We expect to operate the business and execute our strategic initiatives principally with funds generated from operations, remaining net proceeds from the term loan borrowings under the Financing Agreement, and draws of up to a maximum of \$22.5 million under the Financing Agreement’s revolving credit facility. We anticipate that we will have sufficient internal and external sources of liquidity to fund operations and anticipated working capital and other expected cash needs for at least the next 12 months as well as for the foreseeable future.

Cash Flows

The following table summarizes our cash flows for the periods presented (in thousands):

	Six Months Ended June 30,	
	2019	2018
Net cash provided by (used in) operating activities	\$ 3,663	\$ (501)
Net cash used in investing activities	(3,576)	(4,905)
Net cash (used in) provided by financing activities	(5,232)	17,574
Effect of foreign currency exchange rates on cash, cash equivalents and restricted cash	(3)	(401)
Net (decrease) increase in cash, cash equivalents and restricted cash	\$ (5,148)	\$ 11,767

Cash Flows from Operating Activities

Cash provided by operating activities aggregated \$3.7 million for the six months ended June 30, 2019. The increase in cash provided by operations compared to the six months ended June 30, 2018 was primarily due to increased revenues and our programs to increase operational efficiencies and reduce costs, the impact of which was partially offset by an increase in working capital requirements.

Cash Flows from Investing Activities

For the six months ended June 30, 2019, net cash flows used in investing activities reflected \$3.6 million used for the purchase of property and equipment. Our purchases of property and equipment largely consist of computer hardware and software to support R&D activities and information systems.

Cash Flows from Financing Activities

For the six months ended June 30, 2019, net cash flows used in financing activities were the result of the Delayed Draw Funds used for the purchase of a portion of our Notes, and refinancing fees paid to the bank and third parties.

RECENT ACCOUNTING PRONOUNCEMENTS

Recently Adopted Accounting Pronouncements and Recent Accounting Pronouncements To Be Adopted

Our recently adopted and to be adopted accounting pronouncements are set forth in Note 1 "Financial Information" of our Notes to Condensed Consolidated Financial Statements under Part I, Item 1 of this Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Foreign Currency Exchange Risk

We have significant international operations and derive more than half of our revenues from customers outside the United States. This business is, for the most part, transacted through international subsidiaries and generally in the currency of the end-user customers. Therefore, we are exposed to the changes in foreign currency exchange rates that could adversely affect our revenues, net income and cash flow.

We recorded a net foreign exchange loss of \$0.7 million and an immaterial gain for the six months ended June 30, 2019 and 2018, respectively. The foreign exchange losses resulted from foreign currency denominated transactions and the revaluation of foreign currency denominated assets and liabilities.

A hypothetical change of 10% in appreciation or depreciation of foreign currency exchange rates from the quoted foreign currency exchange rates as of June 30, 2019, would not have a significant impact on our financial position, results of operations or cash flows.

Interest Rate Risk

We borrowed \$100.0 million, \$15.0 million and \$22.7 million under the Term Loan on February 26, 2016, November 9, 2017 and May 10, 2018, respectively, and an additional \$79.3 million Delayed Draw Funds on May 2, 2019. We also maintain a revolving Credit Facility that allows us to borrow up to \$22.5 million. Under the terms of the amendment effective April 8, 2019, interest accrues on the Delayed Draw Funds, outstanding borrowings under the Term Loan and the Credit Facility at a rate of either the LIBOR Rate (as defined in the Financing Agreement) plus 6.25% or a Reference Rate (as defined in the Financing Agreement) plus 5.25%, at our option. A hypothetical 10% increase or decrease in interest rates paid on outstanding borrowings under the Financing Agreement would not have a material impact on our financial position, results of operations or cash flows.

On June 15, 2015, we issued \$125.0 million aggregate principal amount of our Notes pursuant to the terms of an indenture.

We purchased \$2.0 million and of our Notes during 2017, \$16.2 million during 2018, \$3.9 million on January 22, 2019, and an additional \$74.0 million through a cash tender offer on May 13, 2019. The Notes pay interest semi-annually on June 15 and December 15 of each year, at an annual rate of 2.00% and mature on June 15, 2020 unless earlier repurchased or converted in accordance with their terms prior to such date. The fair value of the Notes is dependent on the price and volatility of our common stock as well as movements in interest rates. The fair value of our common stock and interest rate changes affect the fair value of the Notes, but do not impact our financial position, cash flows or results of operations due to the fixed nature of the debt obligations.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation and supervision of our Chief Executive Officer and Chief Financial Officer, is responsible for our disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified under SEC rules and forms. Disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to our principal executive officer and our principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Our management, including the Chief Executive Officer and the Chief Financial Officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures as of June 30, 2019. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and

procedures. Based on this evaluation, our management concluded that, as of June 30, 2019, these disclosure controls and procedures were effective at a reasonable level of assurance.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarterly period ended June 30, 2019, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. As previously reported on July 15, 2019, our Chief Accounting Officer tendered his resignation to accept a position with another company effective August 5, 2019. We are diligently working to identify qualified candidates to replace our Chief Accounting Officer and, as a result, do not expect any changes to the control environment for the three months ended September 30, 2019.

Inherent Limitation on the Effectiveness of Internal Controls

The effectiveness of any system of internal control over financial reporting is subject to inherent limitations, including the exercise of judgment in designing, implementing, operating, and evaluating the controls and procedures, and the inability to eliminate misconduct completely. Accordingly, any system of internal control over financial reporting can only provide reasonable, not absolute, assurances. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. We intend to continue to monitor and upgrade our internal controls as necessary or appropriate for our business, but cannot assure that such improvements will be sufficient to provide us with effective internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Note 8 “Commitments and Contingencies” of our Notes to Condensed Consolidated Financial Statements regarding our legal proceedings. Aside from the disclosure below, there have been no material developments from the disclosures contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2018.

ITEM 1A. RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks and uncertainties described in Part I - Item 1A under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2018 in addition to the other information included in this Form 10-Q before making an investment decision regarding our common stock. If any of these risks actually occurs, our business, financial condition or operating results would likely suffer, possibly materially, the trading price of our common stock could decline, and you could lose part or all of your investment.
