Non-GAAP Financial Measures

The press release includes forward-looking non-GAAP financial measures, including Adjusted EBITDA and Free Cash Flow. Reconciliations of these forward-looking non-GAAP financial measures are not included in the press release due to the high variability and difficulty in making accurate forecasts and projections of some of the excluded information, together with some of the excluded information not being ascertainable or accessible at this time. As a result, the Company is unable to quantify certain amounts that would be required to be included in the most directly comparable GAAP financial measure without unreasonable efforts.

Among other things, this press release includes estimated results of operations for the year ending December 31, 2019, which estimates are based on a variety of assumptions about key factors and metrics that will determine our future results of operations, including, for example, anticipated market uptake of new products and market-based cost inflation. The projected future results of operations, and the other forward-looking statements in this release, are based on current expectations as of the date of this release and subject to known and unknown risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements, including but not limited to the effect on our sales, operations and financial performance resulting from: our liquidity; our ability to execute our strategic plan, and meet customer needs; our ability to retain and hire key personnel; our ability to produce innovative products in response to changing market demand, particularly in the media industry; our ability to successfully accomplish our product development plans; competitive factors; history of losses; fluctuations in our revenue based on, among other things, our performance and risks in particular geographies or markets; our higher indebtedness and ability to service it and meet the obligations thereunder; restrictions in our credit facilities; our move to a subscription model and related effect on our revenues and ability to predict future revenues; fluctuations in subscription and maintenance renewal rates; elongated sales cycles; fluctuations in foreign currency exchange rates; seasonal factors; adverse changes in economic conditions; variances in our revenue backlog and the realization thereof; and the possibility of legal proceedings adverse to our company.
