BURLINGTON, Mass., Oct. 28, 2020 (GLOBE NEWSWIRE) -- Avid® (NASDAQ: AVID), a leading technology provider that powers the media and entertainment industry, today announced its financial results for the third quarter ended September 30, 2020.

Total revenue increased 14.1% sequentially in the third quarter, while declining slightly year-over-year, as many of Avid's end markets showed initial signs of recovery from the COVID-19 pandemic. During the third quarter, the Recurring Revenue components of the Company's business remained strong. The Company reported record subscription revenue of \$17.9 million, up 73.9% year-over-year, resulting in 6.5% year-over-year growth in Annual Contract Value. Also, in the third quarter, Avid significantly improved its profitability as a result of a 250 basis point year-over-year improvement in gross margin coupled with a (\$4.3) million reduction in operating expenses that yielded a 56.1% year-over-year improvement in operating income and an Adjusted EBITDA Margin of 21.4%. The strong operating results for the third quarter resulted in Free Cash Flow of \$15.5 million.

The non-Recurring Revenue portions of the Company's business related to product and professional services showed strong signs of sequential recovery during the third quarter, although they continued to be negatively impacted year-over-year by weaker demand as a result of the COVID-19 pandemic. Product revenue from perpetual software licenses and integrated solutions increased 29.5% sequentially to \$35.8 million in the third quarter.

During the third quarter, the Company repaid the \$22.0 million balance on its revolving credit facility using available cash. As of September 30, 2020, the Company had \$49.1 million in cash and cash equivalents. The Company's leverage ratio under its financing agreement decreased to 3.4x as of September 30, 2020 as a result of the repayment of borrowings under the revolving credit facility using the Company's strong Free Cash Flow generation in the quarter, and the year-over-year increase in Adjusted EBITDA in the quarter.

COVID-19 continued to have some temporary impact on customer demand for parts of our non-recurring product business, but we expect demand to continue the gradual recovery that started in Q3." Mr. Rosica added, "We have adjusted our strategy and investments to quickly respond to the changes in the market we're seeing, focusing even more sharply on

the parts of the business that we believe will drive more profitable growth. We also remain focused on ensuring we have the right cost structure moving forward so that Avid enters 2021 as a stronger and more profitable company."

Ken Gayron, Executive Vice President and Chief Financial Officer of Avid, said, "We continued to make substantial progress in driving our higher margin revenue streams and improving our cost structure in the third quarter, yielding strong growth in profitability." Mr. Gayron continued, "The improvement in profitability resulted in third quarter Free Cash Flow of \$15.5 million, enabling us to fully repay the balance on our revolving credit facility and reduce our accounts payable, further strengthening our balance sheet. As we head into our seasonally highest Free Cash Flow generating quarter and with the improvements we achieved in our profitability during the third quarter, we believe Avid will generate strong Free Cash Flow as we conclude fiscal year 2020, which should enable us to improve our cost of capital and reduce our interest costs."
